

## My Mummy/Daddy is a Doctor or Nurse

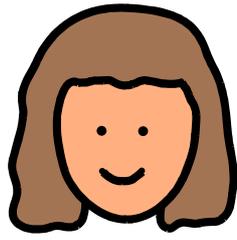

Doctors and nurses work at the hospital and help people who are sick.

At the moment there are lots of people who are sick so Mummy/Daddy might need to work more to help people feel better.

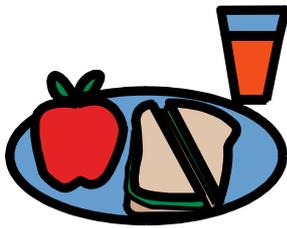

Sometimes Mummy/Daddy might need to stay at work at night-time.

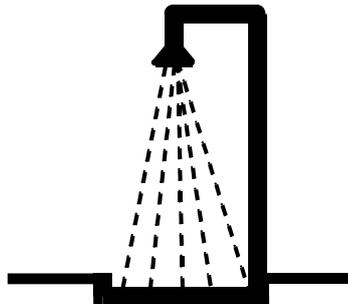

When Mummy/Daddy is home they will play with me and we'll do nice things together.

---

Someone will be at home to look after me when Mummy/Daddy are working. Mummy/Daddy will tell me who that is.

---

When Mummy/Daddy get home from work they will need to have a wash before cuddling me.

We are a family and we love and look after each other.
