

# On the **fifth** day of *Christmas* **SensationALL** gave to me...

Make your own *Fake Snow* recipe!

Have fun with this festive sensory activity

## What you need:

907g Baking Soda

1 can of Shaving cream

Plastic container

## What to do:

Pour all of the baking soda into your plastic container.

Add some of the shaving cream and use your hands or a spoon to mix it into the baking soda.

Gradually add more shaving cream, kneading as you go.  
Repeat until the mixture is the consistency of snow.

The fake snow will become light and powdery when fully mixed (it might leave a slight residue on your hands).

It should even feel cold like real snow!

NB: this is not edible snow and adult supervision is required
